

# MedWorld India

*...where excellent yet affordable treatment come together*

# AN OVERVIEW

India is a leading player in the Medical Healthcare Facilitation Industry. It has emerged as the destination of choice for a wide range of elective medical procedures. India is perfectly placed to be at the forefront of such a service, having extremely **qualified professionals** in each and every medical specialty, and this fact has now been realized the world over. It has a health care system of the highest quality with experienced, well-trained specialists and exceptional private hospitals. The private hospitals are equipped with all the latest diagnostic and treatment technologies.

**MedWorld India** is a professional medical facilitation organization incorporated for providing integrated world class Medical and Surgical treatment in India to International Patients seeking high quality and affordable care. We invite you to receive the benefits of our medical knowledge and expertise for a rewarding and pleasurable medical experience in India, that too at a fraction of what it would cost in other countries.

What makes India more desirable as compared to other countries is the availability of world renowned doctors offering their services in world class hospitals. All this is available at a significantly lower cost even after including your cost of travel and accommodation.

MedWorld India has a team of dedicated doctors who personally attend to all your queries. We are the only facilitators that appoint a personal doctor to the patient from the time of enquiry till the time the patient fully recovers. Your personal doctor will stay in constant contact with you, your local doctor and your medical team in India throughout your stay.

The hospitals and medical specialists MedWorld India partners with are of the highest standard; all specialists have received extensive specialty training in India, UK or USA. We assist patients on every step of their journey: arranging

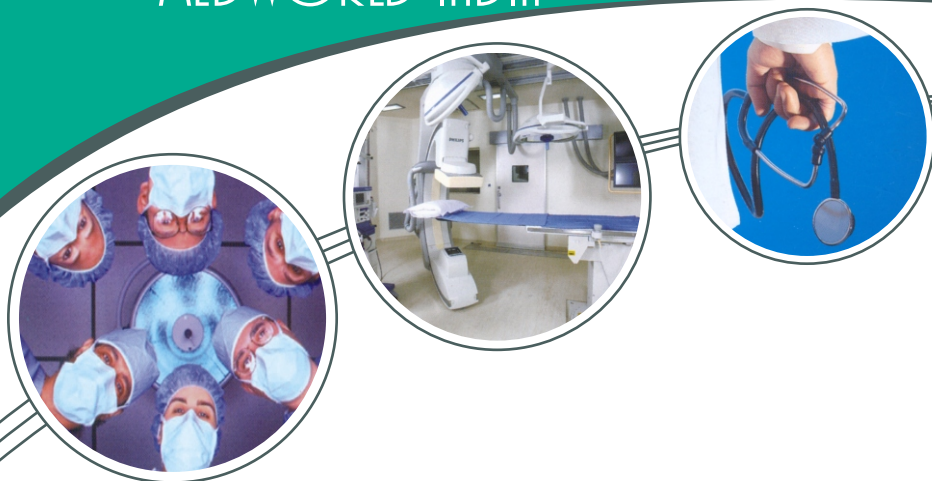

flights and accommodation, meeting patients at the airport in India, booking appointments and the surgery, as well as organizing quality aftercare while the patient is in India. No details are left to chance.

We believe that timely, affordable and quality medical treatment is every human beings right. We are dedicated to this cause and strive to deliver the benefit

and pleasure of medical care to people across the globe.

From initial registration of interest, to returning the patient back to his or her home country after the procedure and recuperation, MedWorld India will ensure the whole process is as smooth and stress-free as possible for it's patients.

# ADVANTAGES THROUGH MEDWORLD INDIA

1. You have a family doctor in a foreign country: MedWorld India will appoint a personal doctor who will be with the patient from the time of discussion of your treatment plan, to arranging your specialist appointments, organizing your aftercare while you are in the country and communicating with your local doctor on appropriate follow-up care at your home.
2. We will guide you to select the best hospital and doctor for your procedure
3. Treatment options and cost estimate within 24 hours.
4. No charge for your queries.
5. We make all your arrangements for travel: MedWorld India helps you get your travel documents, such as passports and visas in order, and advises on best travel options.
6. Complimentary Airport Transfers.
7. Arrange accommodation depending on convenience i.e. proximity to hospital and budget.
8. A support line for your relatives and friends back home: Your loved ones will be constantly informed on your progress via e-mail once a day or more if required.
9. Sim card upon arrival.
10. 24x7 internet facility.
11. Credentials of doctors and hospitals will be provided on request.
12. If required sight seeing, tours and shopping arrangements can be made.

# TREATMENT PROCESS

## Step one: Send us your query

You can either fill out our online enquiry form or contact our staff by e-mail or telephone.

## Step two: Detailed Information

Your assigned MedWorld Doctor will contact you to find out more about your medical history and current medical needs. You provide us with your medical records such as X-rays, MRIs and other test results, which we will use in consultation with our network of medical providers to find the best options for you.

## Step Three: We Research

Your MedWorld doctor then sets to work researching treatment options best suited for you. Your medical condition and personal preferences frame our search for the best options available.

## Step Four: You Decide

We provide you with a solution for your medical treatment and give you detailed information on the hospitals, doctors, travel arrangements, cost etc. To help you make an informed and confident decision, we will arrange a tele-conference between you and the overseas medical team. We can add your local healthcare provider onto the call if you'd like.

## Step five: We Arrange your Travel

Once you've made your decision, we help you get your travel documents, such as passports and visas in order. We guide you on the best travel options.

## Step Six: You Arrive

Once you arrive in India, you'll be greeted at the airport and driven to the hospital or hotel as per our prior decision. Your personal doctor will coordinate your admission and all details during your stay. Your lead doctor will explain every aspect of your procedure in detail.

## Step Seven: Recovery

Your medical procedure begins. Your personal doctor will stay in constant contact with you and your medical team throughout your stay, and will relay information back to loved ones frequently. You'll be closely monitored during recovery, and once the medical team has determined you're ready for discharge, you'll be moved to nearby lodging for further recovery and follow-up care.

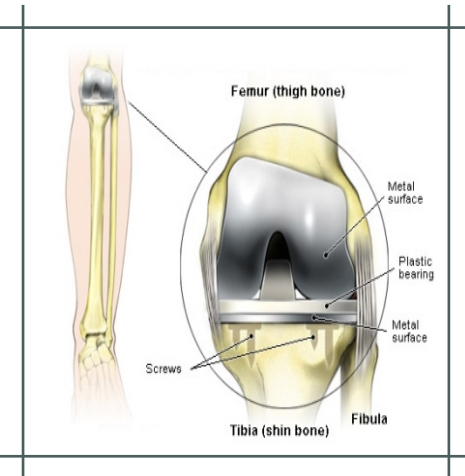

## Step Eight: Aftercare

When your personal doctor receives word from the medical team that you're ready to go home, we confirm your travel arrangements so that once again, all you have to do is pack and board the plane. We stay in constant contact once you're home to assist you and your medical team with any follow-up care.
